This workshop series will be open to Principal Investigators (P.I.’s) as well as HSU Staff & Faculty Researchers.

Workshops will provide professional instruction covering a number of important topics ranging from identifying funding sources to best practices in Post-Award grants management & research publications.

These workshops are open to everyone, including members of the HSU research community who are new P.I.’s, faculty who plan to become P.I.’s, or experienced P.I.’s, interested in a refresher.

“Using Grant Databases to Find Potential Funding Sources”

As a faculty member at Humboldt State University you have access to several grant databases. Learn how to navigate Foundation Directory and SPIN to find funding for your research and projects. We will also discuss regional and local foundations, and the terminology associated with different types of grants. Researching and selecting the right grant is an important step for any proposal. Come discover all the campus resources available to make your next grant project a success. Click here to register.

Friday, September 26, 2014
12:00 - 1:00pm
Presented by Carly Marino, Reference Librarian

“Navigating Copyright in Your Research”

Conducting academic research often involves the process of reproducing, distributing, creating derivatives, displaying, and/or performing works that are protected under copyright law. So how can you utilize copyrighted materials in your scholarship without infringing on the rights of the creator? Come get an introduction to some tools and tips to learn how to navigate your rights and responsibilities as a researcher. Click here to register.

Friday, October 24, 2014
11:00-12:00pm
Presented by Katie LaSala, Reference Librarian

“This Sponsored Programs: A to Z”

The HSU Sponsored Programs Foundation administers virtually all externally funded grants and contracts on behalf of the University. Come learn about all the services and support we provide to HSU Faculty in submitting proposals, establishing project budgets, and administering your award through the life of the grant. This workshop offers an introduction to newer faculty who are interested in becoming a Principle Investigator at HSU or have recently been awarded their first funded project. Click here to register.

Friday, November 7, 2014
11:00-12:00pm
Presented by Kacie Flynn, SPF Staff
