L7617 (POC)

October 28, 2004

Dear Interested Public:

The National Park Service has prepared a Port-Orford-Cedar Environmental Assessment (EA) to guide the management of Port-Orford-Cedar in Redwood National and State Parks. Port-Orford-Cedar in the parks is found primarily in Del Norte County in the Smith River watershed. Proposed management actions would occur in that area of the parks.

A copy of the EA is enclosed for your review and comment. We will be accepting written comments on the EA through December 3, 2004. The EA is also available on the web at [www.nps.gov/redw](http://www.nps.gov/redw) under the "management documents" link.

If you would like additional copies or information about this EA, feel free to contact Leonel Arguello or Stassia Samuels at (707) 464-6101, extensions 5280 or 5284, respectively.

Written comments should be submitted to:  
Superintendent, Redwood National & State Parks  
1111 Second Street  
Crescent City, California 95531

Thank you for your interest and involvement in this project.

Sincerely,

Bill Pierce  
Superintendent
