Dear Librarian:

The National Park Service is proposing to replace a failing culvert along the Streelow Creek Trail in Redwood National and State Parks with a bridge.

We have prepared the enclosed environmental assessment to describe the proposal. We would appreciate it very much if you could make this document available for public review upon request through June 22, 2007. We will be issuing a news release stating that the document is available at local libraries in Crescent City, McKinleyville, Humboldt State University, and Eureka. The document is also available on the park website at the url address given in the superintendent's cover letter.

If you have any questions, please feel free to contact me at (707) 465-7703 or via e-mail at [aida\\_parkinson@nps.gov](mailto:aida_parkinson@nps.gov).

We appreciate your assistance to provide opportunities for public comment on park activities.

Sincerely,

Aida Parkinson  
Environmental Specialist
