The Eureka Incident of 1885

Fighting of City Councilman
In Tong War Led to Exclusion
Of Chinese from Eureka and Humboldt

By WALLY LANDIS

"Just as we were going quarters just opposite our office.

The news of the Chinese exodus out of Eureka and Humboldt was brought to us by the Associated Press. The news came in the form of a telegram from San Francisco to the offices of The Humboldt Times.

The Chinese were informed that they had been ordered to leave the city by the city council. This was a shock to us, for we had always thought of Eureka and Humboldt as a friendly city to the Chinese.

The Chinese immediately responded by sending a delegation to the city council to protest the order. The delegation was led by Mr. Yung Chung, a well-known Chinese business man.

The city council was unswayed by the delegation's plea. They insisted that the Chinese leave the city.

The Chinese then decided to take matters into their own hands. They formed a group called the "Chinese Guard" and began to patrol the streets of Eureka and Humboldt. The Chinese Guard was formed to protect the Chinese community and to prevent further expulsions.

The Chinese Guard was successful in keeping the peace and preventing further conflicts. The city council eventually backed down and lifted the order to expel the Chinese.

The Eureka and Humboldt incident showed the strength and determination of the Chinese community. The Chinese Guard was able to protect themselves and maintain their community despite the hostility of the city council.

The Eureka and Humboldt incident is a reminder of the importance of community solidarity and the need for understanding and tolerance among different groups. It is a reminder that we must always work towards a better future where all people can live in peace and harmony.
